# Classification of Loans (According to Code of Provisions)

## Group I - Loans of a Standard Nature

- Payments are made when due or past due up to thirty days and. repayment problems are not expected in the future and. totally collectable without realization of collateral.

## Group II - Loans Under Close Monitoring

- Extended to natural persons and legal entities with a creditable financing structure. but for which negative signs are observed or forecasted in debtor's solvency or cashflows due to unfavorable developments in macroeconomic conditions or in the sectors the debtor operates. or. independent from the above-mentioned ones. due to adverse developments peculiar to the debtor.

## Group III - Loans with Limited Collectability

- Full collection is unlikely without realizing collaterals since net realizable value of collaterals or debtor's own funds are inadequate to pay the debt on its maturity and loan loss is likely unless observed problems are removed.

## Group IV - Doubtful Loans

- Full collection of principal and/or interest in accordance with the contract is unlikely without realizing the collateral.

## Group V - Loans classified as Loss

- Nil or negligible collection is expected since the creditworthiness of the debtor is totally deteriorated.

Performing  
loans

Non-performing  
Loans
